

We are taking extra measures at this time to protect our patients, staff and community due to COVID-19, so our patient check-in policy has temporarily been changed.

- 1) Only the patient will be allowed in the office to check-in.
- 2) The patient will be checked in & asked to go back to their automobiles, just until the physician gets ready for the patient.
- 3) At that time the office will call the patient on the phone and ask that only the patient enter the clinic for their appointment.

We appreciate your patience and understanding during this temporary change.
